

Brighton. March 16
1830

Dear Sir

I have not got Greener James
the fourth. - I am much gratified
by the interest you take in my
collection - and your assistance
would be most valuable to me. -
it has been so kindly offered
that I shall not fail to ask
for it when the occasion
presents itself.

I am determined however to
go through my catalogue myself,
and to examine each imperfect
play - I shall make two lists
one of the ^{printed} plays wanted, and
one of the imperfect copies in

my Josephson. These I should
wish to put into your hands
and the one of plays wanted
might be copied for one or
two of the booksellers who are
most likely to meet with
some good plays.

My only reason for not
accepting your offer of going
through my catalogue for me
is that I am anxious to
acquaint myself with my
collection, for my ignorance
of the treasures I possess is
really shameful.

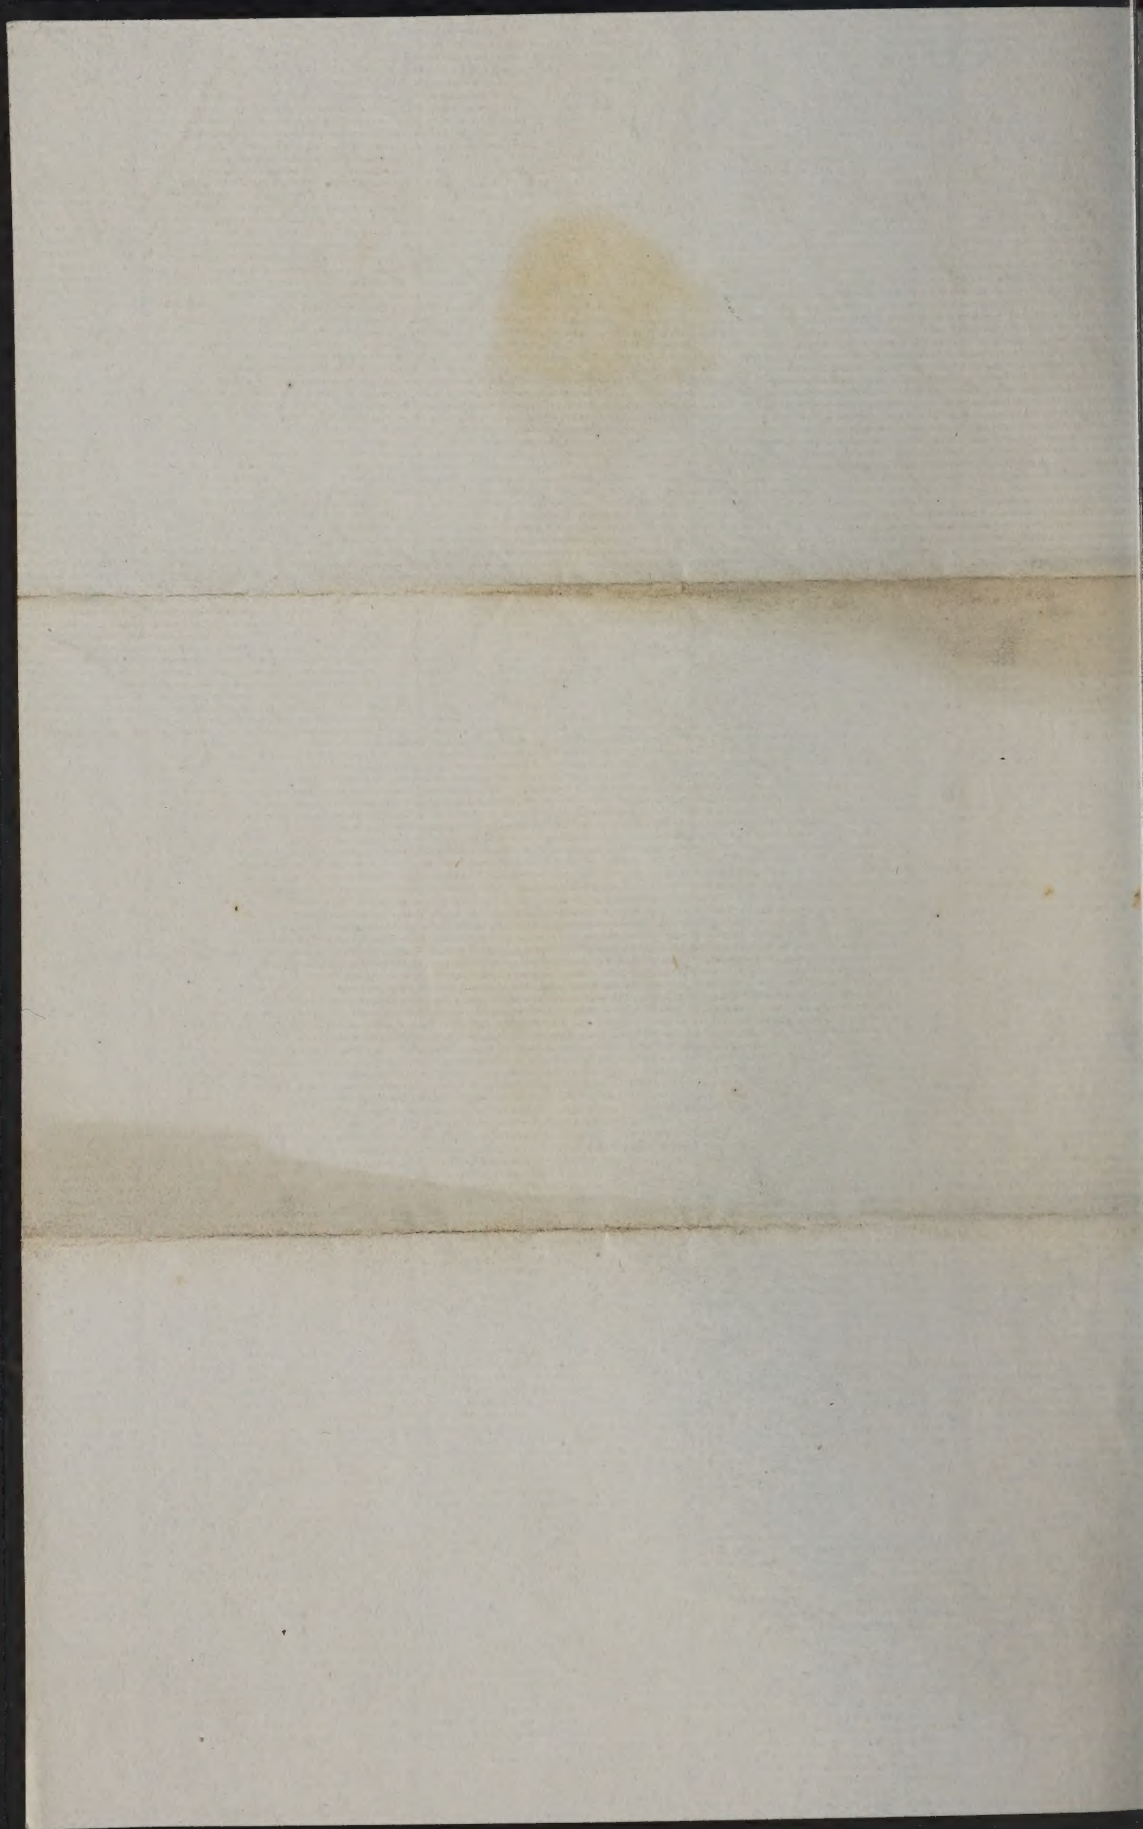

I think I must exclude

MS plays - it would be endless,
but to complete in MS any
hopeless impressions would be
most agreeable.

Believe me, Dear Sir

Yr sincere & true friend

Deborah.
